

# DOG TAC

**FOR DOGS OVER 50 lbs.**

***EASY TO INSTALL***

**Unique “stabilizing cap” allows stake to be buried below standard grass height!**

**Lawn mower friendly, unhook tie-out and simply mow over DOG TAC**

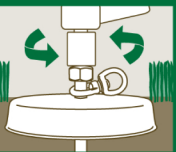

**1**

Dig a round 6” x 3” deep hole at desired location in your yard.

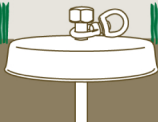

**2**

Use crescent wrench or socket to **SCREW DOG TAC** into the ground so the cap is below the grass cutting height.

**3**

Be sure that the top of the stake is lower than the mower blade height!

**4**

Use loose dirt to fill in any gaps between **DOG TAC** and grass.

**5**

Attach tie-out cable from **DOG TAC** to the dogs collar.

**6**

Periodically clip back grass that grows over top for ease of movement.

**Stabilizing Cap keeps Tie-Out tangle free!**
