

DOG TAC

FOR DOGS UP TO 50 lbs.

EASY TO INSTALL

Unique “stabilizing cap” allows stake to be buried below standard grass height!

Lawn mower friendly, unhook tie-out and simply mow over DOG TAC

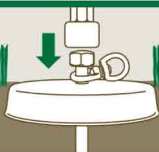

1

Dig a round 6” x 3” deep hole at desired location in your yard.

2

Hammer DOG TAC into the ground so the cap is below the grass cutting height.

3

Be sure that the top of the stake is lower than the mower blade height!

4

Use loose dirt to fill in any gaps between DOG TAC and grass.

5

Attach tie-out cable from DOG TAC to the dogs collar.

6

Periodically clip back grass that grows over top for ease of movement.

Stabilizing Cap keeps Tie-Out tangle free!
